03 · THEMES

Three ideas that run through every room

I

Alpine lodge, modernized

Wood walls, a real fire, velvet and leather, mountains on the wall. Ski-lodge warmth with clean, sleek lines.

II

Glow after dark

Many low, warm lights instead of one bright ceiling: shelf LEDs, picture lights, pendants, lamps and candles, all 2700K and dimmable.

III

Collected, not cluttered

Closed cabinets hide the everyday. Open shelves get only the edit: books, one object, a plant. One strong moment per passion.

04 · SCENES

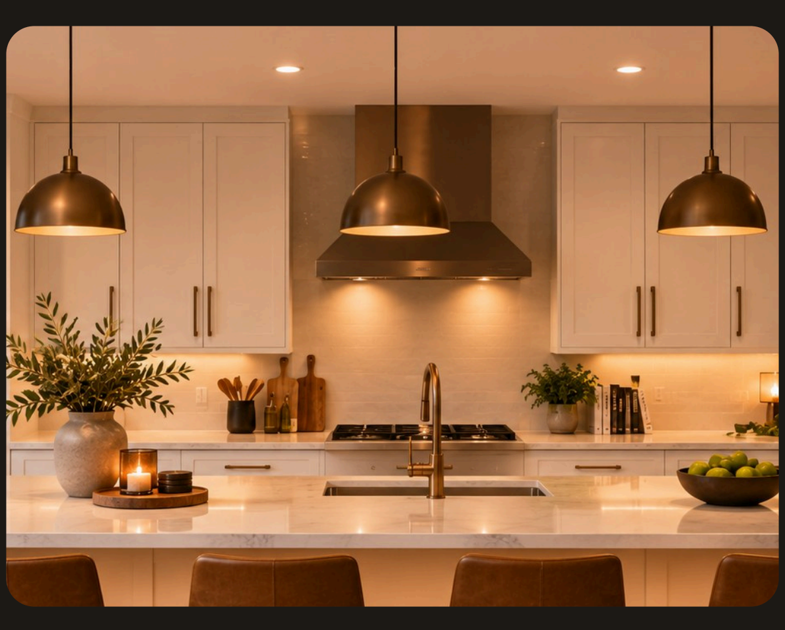
Moments around the house

The fireside
A chunky wood mantel, black firebox, stacked logs as decor.

The collectibles shelf
Star Wars pieces on the top row, lit and spaced like a gallery.

The lit gallery wall
Your ski and dive photos under brass picture lights.

Toller’s spot
His copper coat is literally part of the palette.



Kitchen glow
Brass domes over marble; under-cabinet light after sunset.

Mountains on the wall
An art-mode TV that reads as a painting when it’s off.

05 · YOUR STORY

Where your passions live

Skiing
Goggles on the shelf, ski prints framed, gear in a closed entry bench.

Scuba diving
Your own dive photos, printed big, as Deep Sea accents.

Outdoors
Mountain art, a real fire, knit throws, forest views.

Travel
A globe, a stack of travel books, frames you rotate after trips.

Star Wars
One lit collectibles row in the office; one framed poster downstairs.

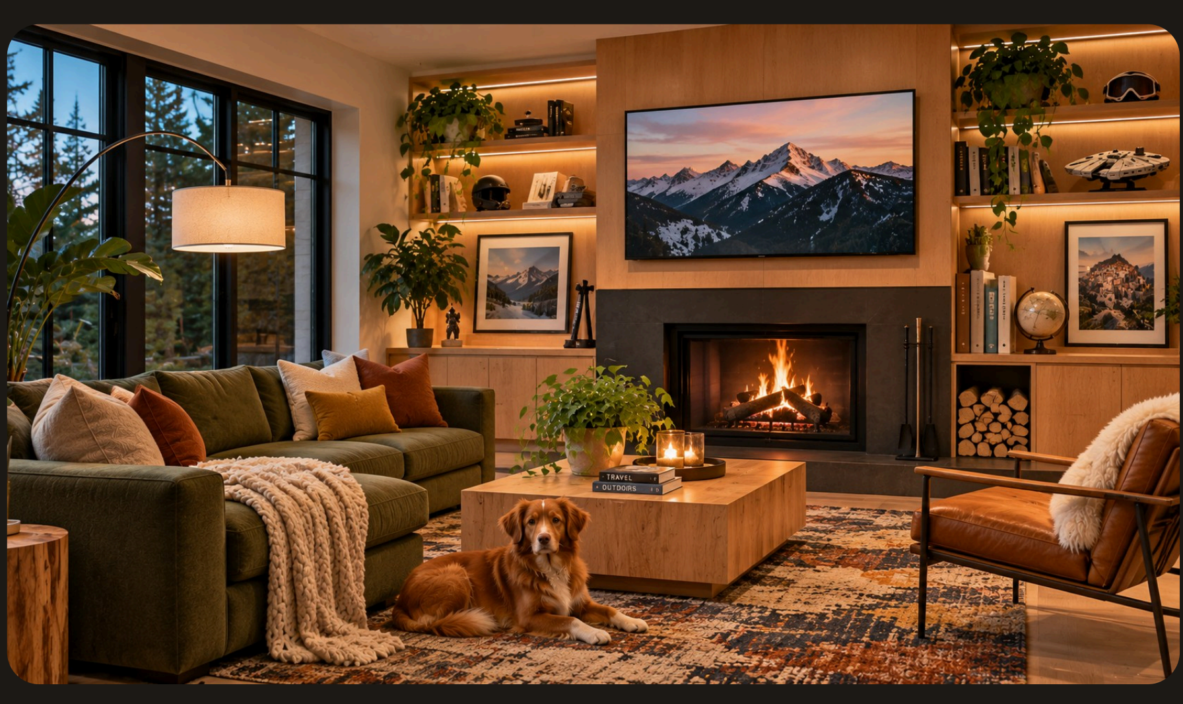
Gardening
Trailing pothos on shelves, olive branches, herbs by the stove.

Toller
Durable patterned rugs, a bed in every hangout room, a muddy-paw drop zone.

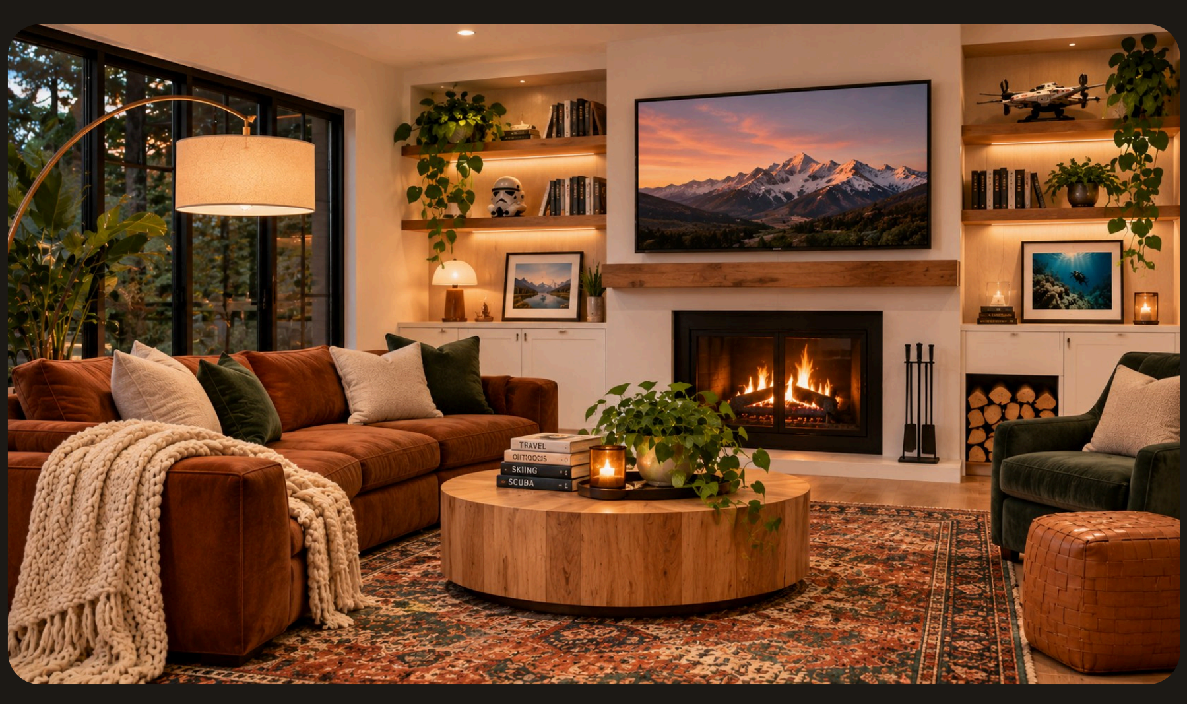
Organized
Closed cabinets under every built-in; one in, one out on display.

06 · THE ROOMS

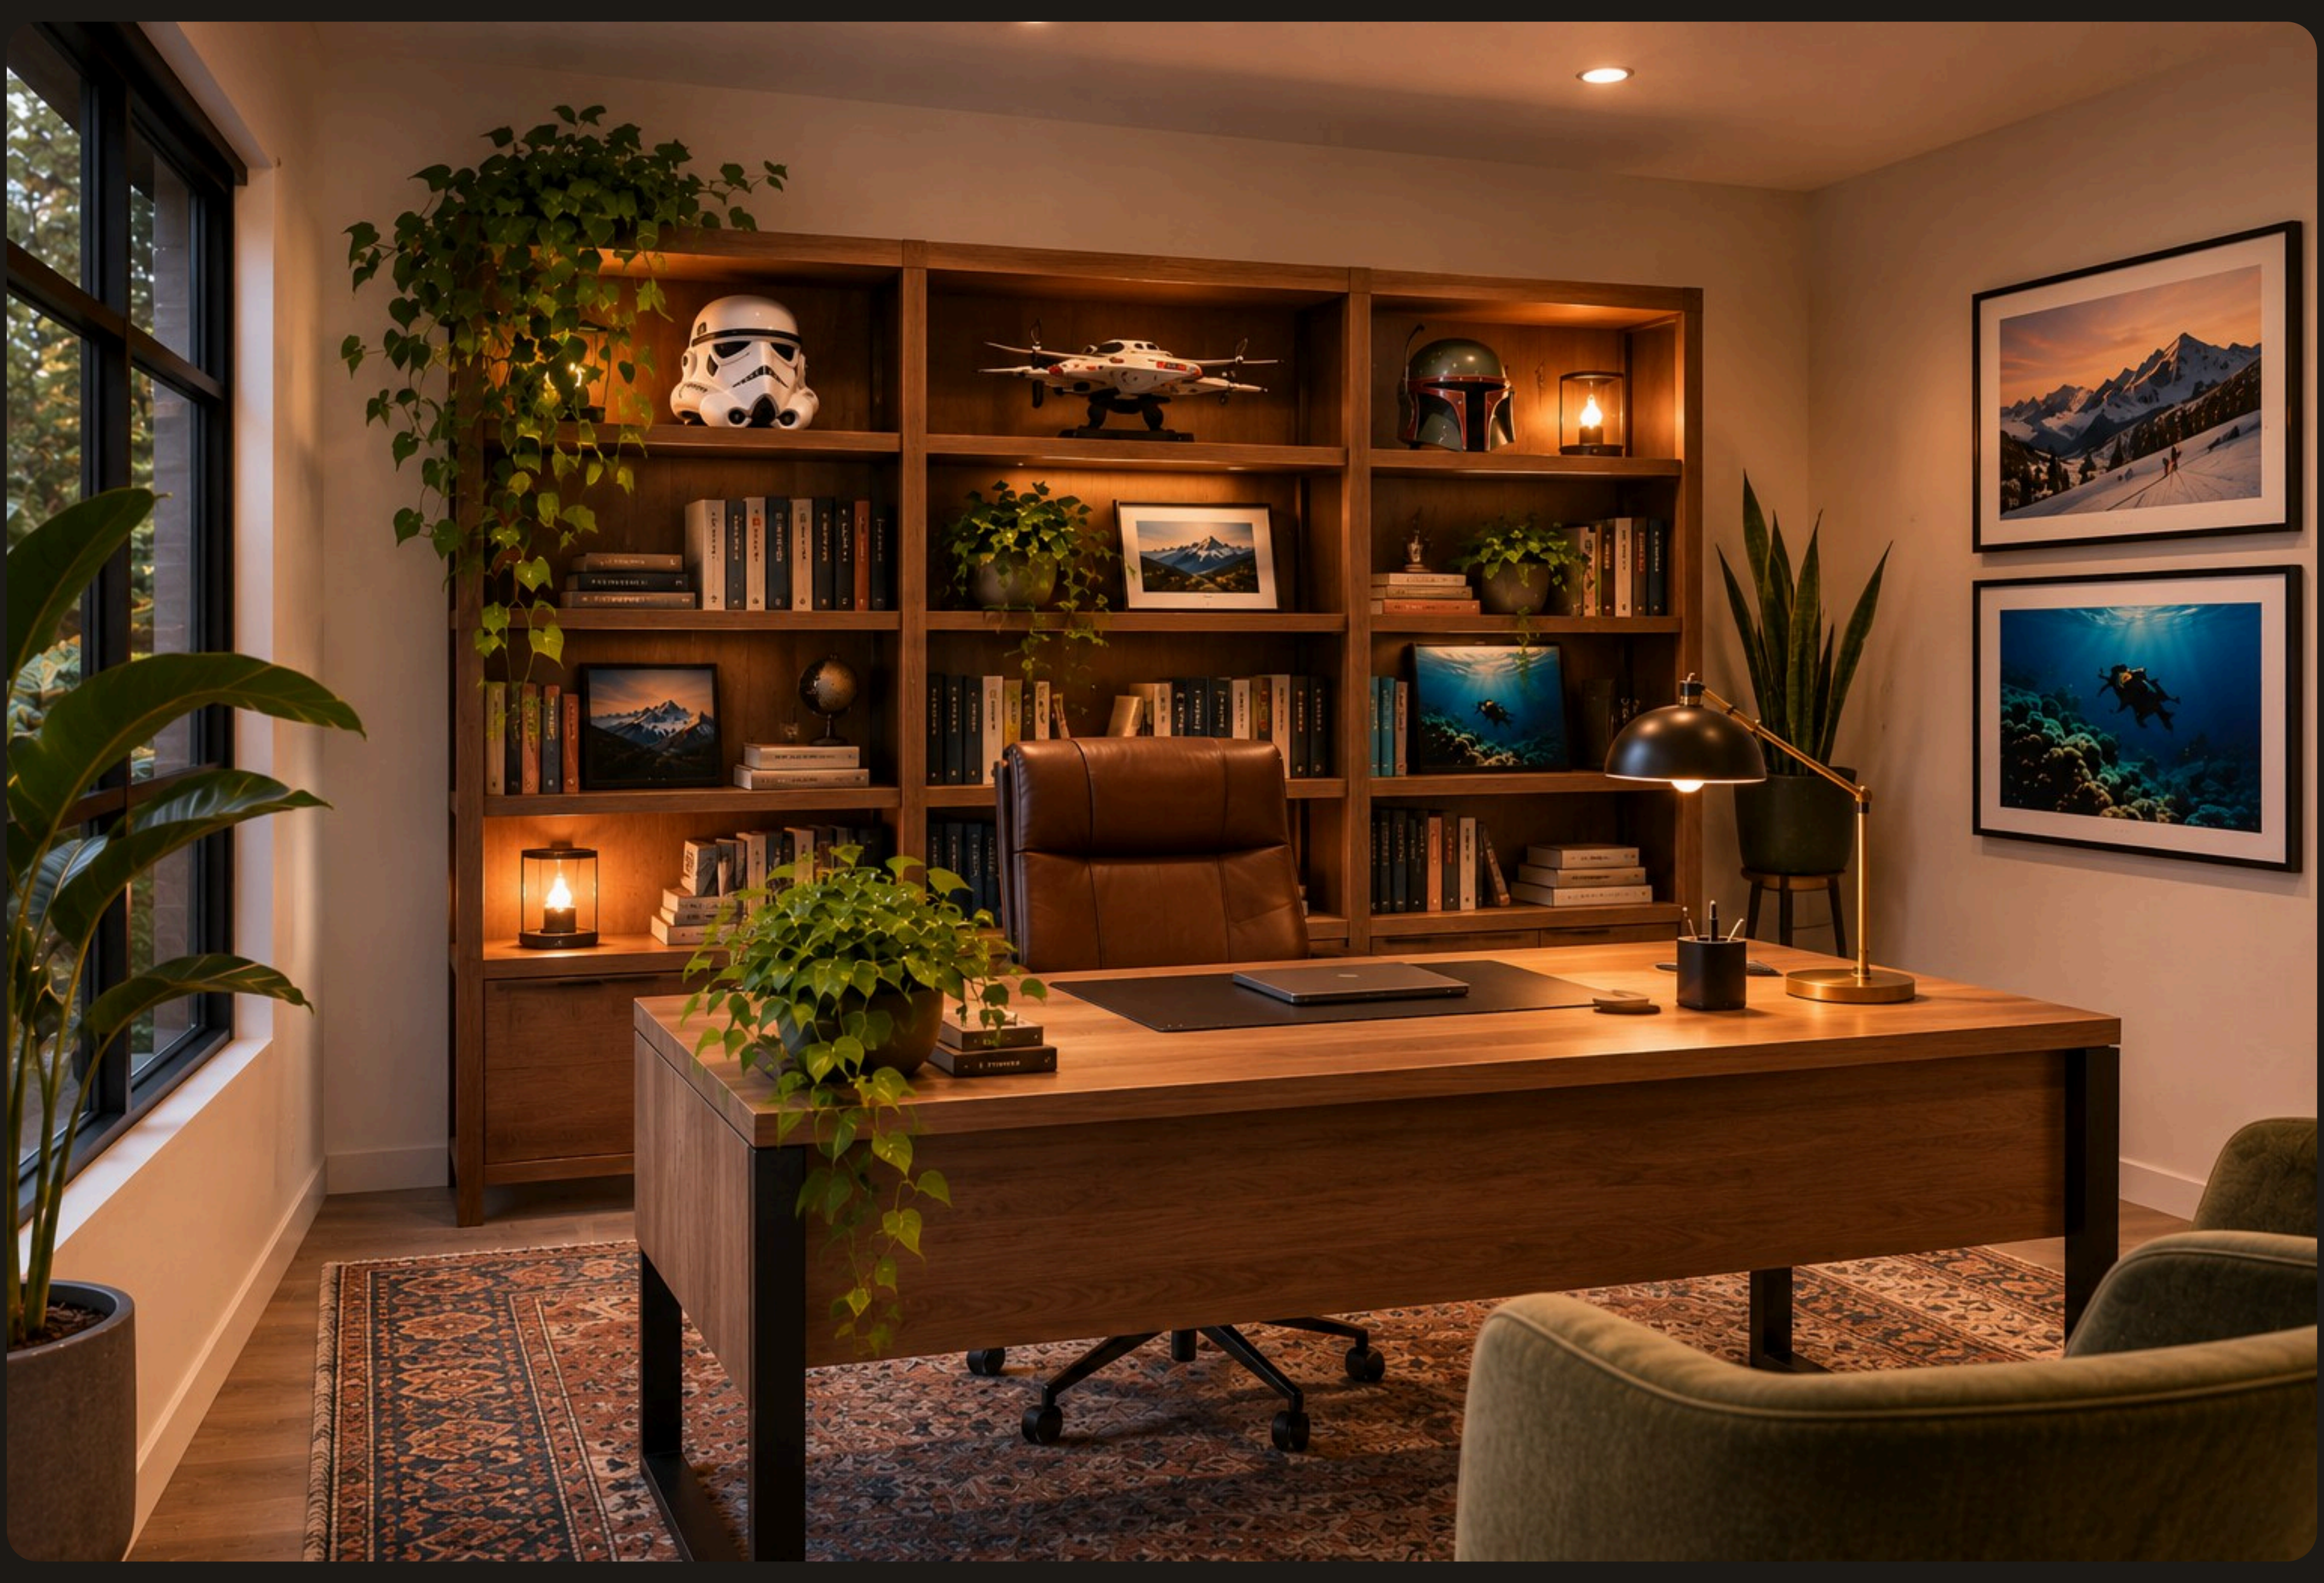
The renders



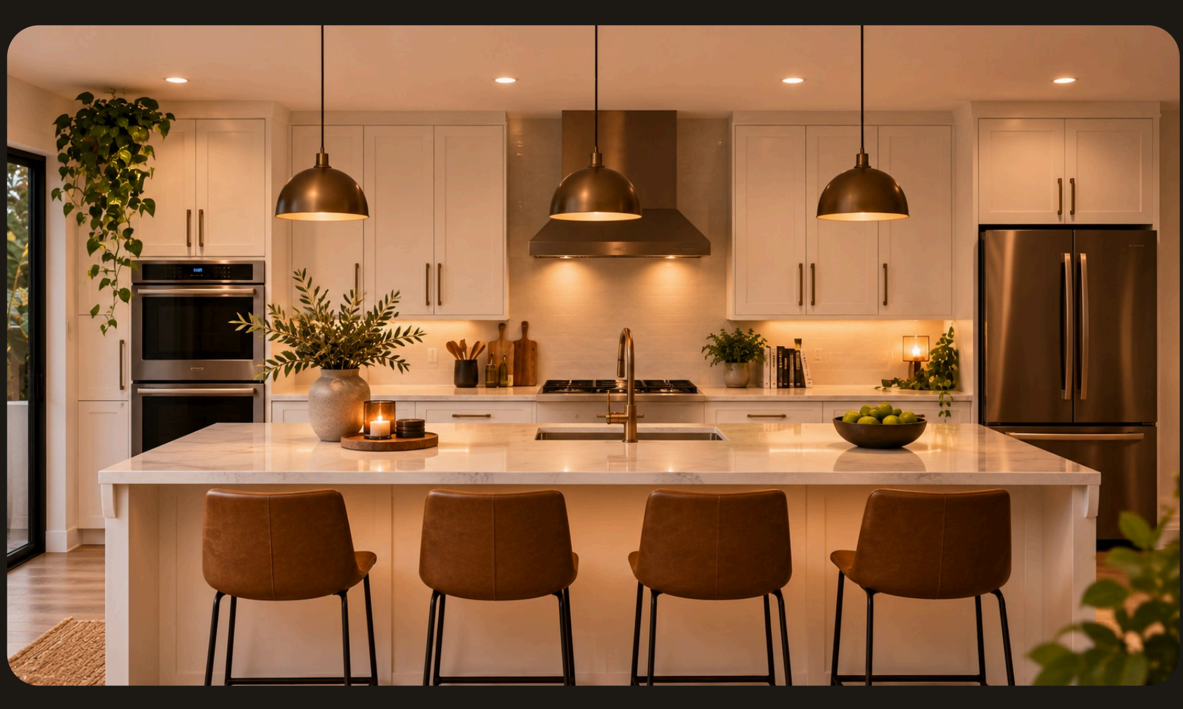
Living room · Option A
Olive velvet and a full wood fireplace wall. Closest to your maple wish.



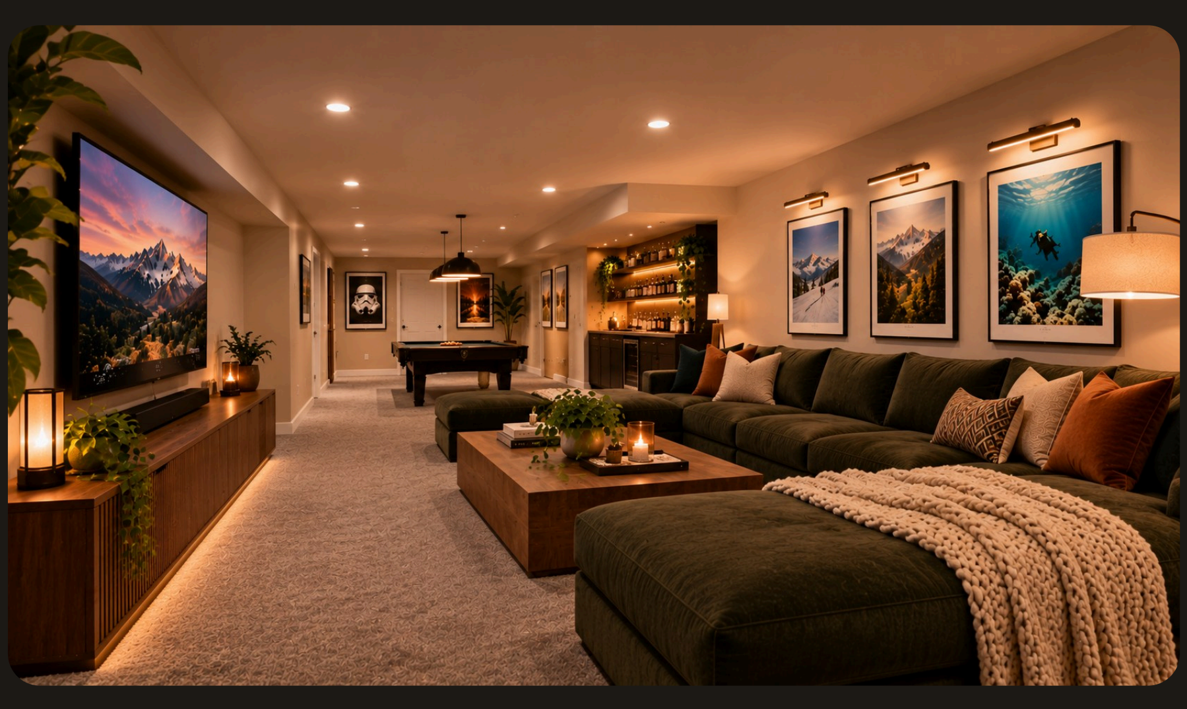
Living room · Option B
Cognac velvet with white built-ins. Brighter and ties to your white kitchen.



The office
A lit wood bookshelf wall behind the desk, your video-call backdrop. Build it in lighter maple to brighten it against white walls.



Kitchen
Your whites and marble stay; brass pendants, pulls and leather stools warm it up.



Lower-level lounge
Movie and game nights: olive velvet, a lit gallery wall, a glowing back bar.
